## V500DP

*Quality and Efficiency*

After 40 years **ALFA** in association with **ULTIMO** are proud to announce a redesigned ultra high performance dishwashing machine line.

**ALFA** has developed the V500DP and V500 to the point where they provide very reasonably priced top quality ware-washing, very efficient use of water and power, with features found only on very expensive or larger models.

**ALFA** has succeeded in maintaining this excellent performance for our market, without sacrificing component quality and efficiency, while adding desirable features, all at an amazingly reasonable cost.

*Versatile Workhorse*
